Summary

I build and operate integrations and internal tools that connect business workflows, applications and infrastructure. My experience spans TypeScript and PostgreSQL products, authenticated SaaS and AI tooling, repeatable deployment and recovery checks, and production incident response.

Skills

- TypeScript, Next.js, Node.js
- MCP, OAuth
- PostgreSQL, Docker
- Monitoring, diagnostics

Professional Experience

Founder / Product Engineer / Systems Lead

Technomancy IT LLC

Present

- Build and support production software for clients, from requirements and data design through deployment and on-call support.
- Built access-controlled MCP integrations and automation across Slack, Google Workspace, Atlassian and internal tools.

Senior Systems Engineer / Datacenter Architect

Front Range Internet Inc.

2015 - 2020

- Developed and replaced billing software while operating hosted PHP and JavaScript services.
- Built NOC diagnostics, handled production escalations and led FRII’s side of SOC 1 and SOC 2 audits.

Systems / Software Engineer

Office Evolution

2014 - 2015

- Automated firewall and router provisioning with Node.js and built a portal for receptionists to handle everyday Wi-Fi changes.
- Built a Linux routing system that mapped individual Wi-Fi access to the right office VLAN and applied per-office bandwidth and access settings.

Network & Systems Engineer

PlumChoice / Everon

2012 - 2014

- Monitored and troubleshot client networks and endpoints, served on call and built reusable diagnostics for recurring support issues.
- Worked with business owners and end users through incident handoffs and escalations.

Infrastructure and Systems Focal

IBM

2010 - 2012

- Coordinated infrastructure changes and incidents across enterprise application and infrastructure teams.
- Wrote Perl, Bash, VBA and PHP scripts and built an internal backup tool used to reduce licensing costs.

Selected Projects

Technomancy IT Platform

Independent product

- Connected support, CRM, scheduling, billing and infrastructure telemetry in a TypeScript, Next.js and PostgreSQL platform with separate client and staff access.

NuPrice

Client engagement

2019 - 2021

- Built and operated marketplace repricing software that ingested marketplace and competitor data, evaluated customer-defined rules and automated price decisions.

Education

Front Range Community College

Computer Science coursework

2011 - 2013

Certifications and Training

CompTIA A+ | CompTIA | Earned

CompTIA Network+ | CompTIA | Earned
